## **PURPOSE OF THIS WORK**

This book, like the others published by me, is intended to lead men to become better, to love God above all and their neighbor as themselves. My works are not intended for entertainment, but to provoke reflection on our existence. In God there is an answer for everything, but the journey towards knowledge is gradual and we do not reach answers for everything, because our mind does not have enough free space to support it. But in this book you will find some answers to some of the dilemmas of our existence.

## INTRODUCTION

God simply exists because chance could not have created a world so perfect and synchronized as what is before our eyes. I try to show people that God can be known, sense and we can be friends him. The world and the life of every person has a purpose, there is a meaning to life. The Holy Bible is a guide to lead man to the knowledge of God and his will.

This book was written in 1990, which served as a study book for new converts in an evangelical church. Then between the years 1994-1998 wrote about 30 books which I ministered theological teachings. I have no claim to be the owner of the truth, just try to find the answer to the most common questions of the human mind.

The human being is a complex creature. It is different from all other living beings, reason why rigorous studies are conducted within psychology to unravel the mysteries of human nature and indeed the efforts of experts have taken effect some positive, however, problems remain, and we are not pessimistic when we say that things have worsened day after day ... However, the human being is still struggling against the current that drags to the destruction of society.

In spite of everything... the human being want peace, happiness, a comfortable home in which to raise their children, food on your table, security for the future, requires remedies for their illnesses to be recognized by others, and widespread concern bedevils men inside: It is the question of death. Why do we have to die? What after death? There is another life? Why are we born? Why do we live?

When man turns on the TV or the radio, or read the papers it seems that everything is meaningless. Well it is true that the history of man is a replay. Repeats continuously. Everything we see and hear is: Inflation increases, new wave of assaults in the city, government corruption, ravaging economic crisis, flood leaves thousands homeless, drought forces the man to emigrate, increases the armed conflict in the Middle East, military coup overthrows government , the energy crisis, the percentage of orphans and children of single mothers breaking record, juvenile offenders cause fear in the population, cases of rape popular revolt, car accident

causes death and several injuries, disease outbreak quickly-spreading in the region, pollution in rivers contaminates water, no vacancies in hospitals, candidates for election promises to solve inflation problems, education, and health; millionaire kidnapping, terrorists take plane, hurricane devastates, earthquake destroys, growing slums, steelworkers on strike, drug leads youth to death, employers exploiting employees, suicide rate grows, divorce and separation become common, children are left with the mother or the father?

We decided to stop here because the list of mankind's problems is extensive, and you know and maybe live with some of these. Now, we ask, is God's will all this? - Certainly not! But why the world is like? How can we overcome avalanches problems of this life? How to achieve eternal life? HAS THE ANSWER GOD. Who knows the clock, unless inventor?! So God, as the creator of man, know where the faults and he is interested in fixing it. But you want to change your life? If you want, study this book.

Many of the pictures used in this book were designed by Scribe Valdemir in 1990, in the version of the Bible Study Guide photocopies bound distributed at the time. In the first version there were 130 pictures and 1,886 biblical quotations.

## **I – BIBLIOLOGY**

Bibliology is the part of theology study analyzing the Bible as a collection of sacred books, since its formation, inspiration, structure, and history. The Bible was written on papyrus (common plant leaves in Egypt) and parchment (animal hide working for writing), these rolls are also called scripts. Currently there are about 40,000 manuscripts prepared between the second century and the XV.

## 1 - The first translations

The first translation of the Old Testament into another language (Greek) was called "Septuagint" because there were seventy experts who translated (ie the biblical inter period) from Hebrew into Greek. The first complete translation into another language (Latin) was called "Vulgate" (ie in the year 400 A.D.). Because it was translated into Vulgar Latin. The word "Bible" comes from the Greek word "biblos" which means "little books."

The first translation into English was in the Middle Ages by order of King James and so was called "King James Version".

Papyrus

At the time of Reform (XVI century), Luther translated into German and was in 1569 that published the complete translation of the Bible into Spanish. It's the famous translation "Casiado Reina." Today the Bible is translated into more than 1,500 languages, thanks to the work of missionaries who have dedicated their lives to forward other people the word of God; Bible societies also greatly contributed to the dissemination of the Bible. Did you know that since the invention of the press today published the book most in the world is the Bible?

Luther

Two enemies of the Bible, who tried to prevent their disclosure were:

A - The Greek king Antiochus Epiphanes (second century BC) who tried to destroy the A.T. Ordering it to be burned all the Bibles.

B - The Roman Catholic Church during the Middle Ages that forbade people to read the Bible and even killed thousands of Protestants for spreading the word of God.

## 2 - Structure of the Bible

The Bible has two divisions: the Old and New Testament. first we will see the order of the Old Testament and the approximate date they were written:

The Old Testament was written in Hebrew and small portions in Aramaic. The period in which all it took was written 1100 years, from Moses to Malachi. The Old Testament is the sacred book of the Jews. Another structure of the Old Testament is: Law, Prophets (major and minor prophets) and Writings (historical and poetical books).

Jerusalem, the main city mentioned in the Bible.

The New Testament is divided into:

The New Testament was written in Greek in the  
space of 60 years. The first part of the Bible recognized as  
sacred was the law, some centuries after the other Old

Testament books were gathered together in one volume is also considered sacred; since the New Testament books were only considered definitely canonical (sacred) about 300 years after Christ (it is important to us to say that whenever a book was written, was automatically recognized sacred by the people of God community).

## 5 – Inspiration

The Bible is inspired by God!!!!!! Many people do not understand the origin of the Bible and say, "how can God have written the Bible?" - But we do not say that God wrote the Bible, however, faithful and loyal men of God were inspired and guided by the Spirit of the Lord to write the Bible. Memorize it well: It was not psychographic, not dictated, but inspired. God guided the thinking and words that men wrote. The Bible itself declares written by men under special inspiration of God (Exodus 24.4 Jeremiah 30.2: Isaiah 34:16: 8.1; 2.2 Habakkuk and Zechariah 7:12).

In the Bible appears the phrase "God said" or "thus said the Lord," and others like these about 2,600 times, this means that there is strong internal evidence pointing to the Bible the word of God (Psalm 62.11; Isaiah 45.5; Mat 3:17;. II Corinthians 4.6; Apoc 1.17-18;. Gen. 1:28;. Exodus 20.1-3; Joshua 1.1; Judges 6:23; I Samuel 3:10, Job 42.7).
